

Viz.ai One™ & Microsoft Cloud for Healthcare

Your Platform for Enterprise AI Workflow

Viz.ai together with Precision Imaging Network, part of Microsoft Cloud for Healthcare, enhances radiologist workflows, streamlines communication with treating physicians, and supports care team collaboration for effective patient treatment and follow-up.

Chest & Abdomen

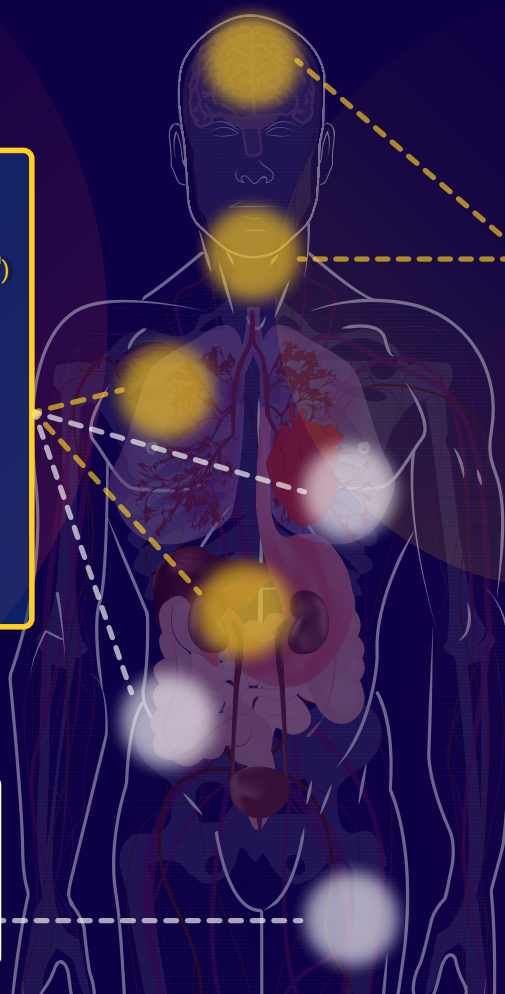

- Pulmonary Embolism (Viz PE™ & iPE™)
- Rib Fracture
- Lung Nodule
- Coronary Artery Calcification
- COPD
- Tube Placement
- 2d and 3d Breast CAD
- Breast Density
- Aortic Dissection (Viz Aortic™)
- Aortic Aneurysm (Viz AAA™)
- Bowel Disorder
- Liver Fibrosis

Head & Spine

- Large Vessel Occlusion (Viz LVO™)
- Computed Tomography Perfusion (Viz CTP™)
- Intracerebral Hemorrhage (Viz ICH™)
- Cerebral Aneurysm (Viz Aneurysm™)
- Subdural Hemorrhage (Viz SDH™)
- Cranial Fracture
- Cervical Spine Fracture
- Vertebral Compression Fracture
- Hyperdensity Volumes & Midline Shift (Viz ICH+™)
- Multiple Sclerosis
- Dementia
- High Grade Glioma Analysis
- Epilepsy
- Obstructive Hydrocephalus
- Osteoporosis Spine

Extremity

- Upper and Lower Extremity Fracture
- Osteoarthritis

A combined suite of **over 48 AI models** drives **real-time clinical intelligence** across a wide range of specialized care areas including oncology, cardiovascular, gastrointestinal, orthopedic, spine, emergency, and neurosciences.

Viz.ai One™ & Microsoft Cloud for Healthcare

Your Platform for Enterprise AI Workflow

Enabling health systems with a combined set of AI models and intelligent care coordination to streamline workflow and provide actionable clinical insights, to help shorten time to treatment, manage patient follow-up and improve care.

iz.ai

Microsoft Cloud for Healthcare

Partnership Value

Accelerated Adoption of over 48 AI Models

Reduced Integration Points & Infrastructure

Streamlined IT, Security, and Contracting Process

Specialty Workflow and Communication Tools

Who Benefits

Radiology

Specialty Physician & Care Teams

Patients

IT & Security

Accelerate treatment decisions across devices

73% faster CTA-to-team notification

Best in class AI

Alerts minutes faster than conventional AI

Access to imaging beyond your PACS

Embedded in your workflow

Alerts in workflow for Radiology

Ability to view Viz key images directly within PACS for reference and documentation.

GDPR Compliant

AWS Well-Architected

CSA Certified

ISO Certified

NIST Compliant

SOC 2 Type II Certified
